**Saint-Gobain Performance Plastics Announces  
Distribution Agreement with Modern Plastics for TYGON® Tubing**

***Distribution Partnership for TYGON® Brand Flexible Tubing***

**Akron, Ohio.** – Saint-Gobain Performance Plastics has signed an agreement with Modern Plastics, Inc., a Bridgeport, Conn.-based plastics distribution company, to distribute TYGON® Brand Flexible Tubing.

“We are very excited at Modern Plastics for the opportunity to market such a worldwide recognized brand name product like TYGON® Tubing Products” said Bing J. Carbone, President of Modern Plastics. “The addition of TYGON® brand-name tubing products adds another quality product to our extensive product line of plastic materials we currently offer. It is a natural extension of our product line that should help us strengthen our position in a variety of industries that we already serve,” he added.

According to Carbone, Saint-Gobain Performance Plastics has demonstrated a superior reputation for quality and consistency in all of their products which extends into the TYGON® tubing product line. “It’s a strategic step and we very excited about the opportunity to partner with Modern Plastics for Saint-Gobain Performance Plastics.” said Product Manager, J David Brinkman.

**About TYGON® TUBE**

Since its introduction in the 1940's, Tygon® tubing has been recognized as an integral and vital component in countless fluid transport systems. By delivering uncompromising standard of consistent performance, today's Tygon® tubing has become the standard by which all flexible tubing is judged. Tygon® tubing is found in applications from pharmaceutical, medical, laboratory, food and beverage applications which require temperature, abrasion, and chemical or permeation resistance. There is a Tygon® formulation proven to enhance user performance and increase overall productivity within all environments.

**About Saint-Gobain**

For more than six decades, Saint-Gobain Performance Plastics Products Corporation has set the standard for developing quality, high-performance products including the exceptional line of TYGON® flexible tubing. With the addition of Acutech products, the company has further solidified its place as a leader in the development and manufacture of high-performance plastics.

Saint-Gobain Performance Plastics extrudes thermoplastics tubing, pipe, and specialty profiles, as well as heat shrink tubing and highly specialized proprietary custom products and services.
